SILVER LAKE ROAD (R00088117)

(No Change)

The project is substantially complete. Next spring we will monitor the grass growth before paying the contractor the final retainage.

Currently the project is under budget with change order #1 pushing the project costs to slightly above the bid amount.

•	Project work completed to date	\$583,244.55
•	Change Order #1 completed to date	\$46,871.00
•	Pay Request #3	\$630,155.55
•	Original CO #1 amount	\$52,936.00

- **Project Contractor**
 - Pitlik and Wick
 - o Bid amount \$628,635.70

The City of Eagle River was awarded a \$320,971.32 MSID grant from WISDOT for the reconstruction of Silver Lake Road from the intersection of Sheridan Street and Silver Lake Road to the City limits near the swimming beach. Our estimate at the time of the bid was \$670,244. The planned project is to include replacement of the pavement and provisions for a sidewalk on the south side of the project.

Added to the Silver Lake Rd Project was drainage corrections near the end of Mc Faul Lane. This cost was included in Change Order #1.

NON TID SERVICES 2025 (R00088139)

This project number will be closed at the end of 2025. MSA will present a new NON TID Services for 2026 in January.

GIS UPDATE (R00088098)

The City met with MSA to discuss moving their GIS to ESRI's new software platform called Experience Builder. The current version called Web AppBuilder will be retiring this year. The city plans to move forward with the upgrade to Experience Builder in 2025. The current GIS apps will continue to work until the upgrade is complete.

USER AGREEMENT WITH LANDFILL UPDATE (R00088141)

MSA will continue to facilitate User Agreement talks between the City of Eagle River and Highway G Landfill. The discussions relating to updating the agreement have paused, because the City is no longer accepting the landfill's leachate. Additional conversations are anticipated in the coming months. MSA has also periodically shared information with the landfill and their engineer regarding leachate pretreatment.

GENERAL WASTEWATER ASSISTANCE UPDATE (R00088143)

MSA has provided various technical assistance to the City of Eagle River in recent months:

- Prepared a Standard Operating Procedure (SOP) for Chemical Phosphorus Removal and provided to the WWTF Operations Staff for review and comment.
- MSA addressed comments based on City's input and revised the SOP
- The City can provide the SOP to DNR at their earliest convenience. The DNR requested the SOP in preparation for WPDES Permit reissuance.

WDNR INTENT TO APPLY - CLEAN WATER FUND AND SAFE DRINKING WATER LOAN PROGRAMS

An ITA will was submitted for sewer lining that was part of the Spruce and Third Streets project. An ITA does not obligate the city to proceed with a project.

There is no fee for this service. It is important to think about what possible projects could come up in the next year to apply for. This should be looked at like a wish list. Funding changes will happen over the next year, and this is the required first step in using DNR loan and grant programs.

[EXTERNAL]RE: Sewer Rates

Hi John,

I looked at our most recent data from this year's survey. It's not fully QC'd yet, however, it should be close.

All of our graphics are not completed yet, as there are some data points that we need to clean up and that means we need to contact individual survey respondents to clarify. But, this should still be a bit helpful. Based on your submitted information to the user charge survey, the residential rates are \$391.57 based upon actual water usage data. Still comparatively lower than other communities in the 1000-2000 population range, who's average annual rates are \$584.94 and median annual rate is \$548.41.

Hi Pat,

Hard to believe, but it's review time again. This time around we have the complete loss of landfill revenue to address along with many other factors. So, would you be able/willing to provide an updated comparison for us again.

I attached our latest sewer rates. Our last increase was 8% as of 1/1/25.

Thank you!

With much appreciation, John

Becky, please find attached the 2025 billing invoice supporting final project costs for ULERCLC. The City of Eagle River's share is \$1,720.82. The commission approved an additional expenditure of \$1,000 to upgrade its website. This expenditure is split evenly between the city and townships. Therefore the 2025 invoice amount is slightly above budget even though there was a decrease of EWM hand harvesting costs from 15 to 14 days.

I can arrange to pick up the check in person. Or please mail to:

ULERCLC P.O. Box 1393 Eagle River, WI 54521

Thanks!

Project funding is shared by WDNR grant funding, the government bodies below, the private sector represented by ERCLA and the commission treasury. The project is administered by the Unified Lower Eagle River Chain of Lakes Commission.

Preliminary indications call for a similar Eurasian Water Milfoil treatment program using DASH (diver assisted suction harvesting) hand pulling in 2026. The budget for DASH hand harvesting of Eurasian Water Milfoil is more than 2025 due to increased contractor/vendor costs. Additionally, a once every five years point intercept aquatic plant survey is included.

Subject: Riverview Park Shelter Reservation - GRABAAWR June 14 **Attachments:** 2026 Bike Wisconsin Eagle River Riverview Park.pdf

Hi Becky,

Thank you again for speaking with me this afternoon. Attached is the completed rental and reservation contract for our use of the Riverview Park shelter on the morning of Sunday, June 14th as a rest stop location for the GRABAAWR bicycle tour. This seven-day ride follows the Wisconsin River from its Northwoods headwaters all the way to its meeting point with the Mississippi in Prairie du Chien, and the rest stop location in Eagle River is both perfectly situated and truly picturesque - our riders will greatly appreciate it.

As we discussed, I would like to formally request a reduced fee for the shelter reservation. This event offers several benefits to the community, including:

- Promoting health, fitness, and outdoor recreation
- Bringing approximately 100 participants to the area who will be purchasing food, fuel, and other local goods
- Supporting Eagle River's hospitality businesses our group has stayed in town for many years

Based on past experience, our impact on the park will be very light. We plan to offer cycling-related snacks and sports drinks, provide access to restrooms, and perform only minor bicycle adjustments as needed. We will, of course, leave the park in "as found or better" condition.

Please let me know if you have any questions or if there is anything else you need from me. Thank you again for your kind wishes for a safe ride - I look forward to hearing from you soon!

-Rob.

Appendix A - Where Wisconsin Law Says You Cannot Use Impact Fees to Replace Existing Infrastructure

Wis. Stat. § 66.0617(6)(a)

This subsection requires that impact fee revenues be **spent only on capital costs that are** *necessary to serve new development*.

It specifically says impact fees may be used only for:

"Capital costs that are necessary to accommodate land development, except that impact fees may not be used to pay for costs to address existing deficiencies, unless the deficiency is simultaneously corrected to meet the current level of service."

This is the key prohibition.

Replacing an existing street after development is completed is:

- · A replacement of existing infrastructure, and
- A correction of an existing deficiency,

and is therefore **not eligible** unless the improvement increases capacity **for new development**, and even then only the *incremental* capacity for the new development can be impact-fee funded.

Section 1 - Introduction

PURPOSE

The intent of the Eagle River City Employee Policy Handbook ("Handbook") is to provide a management framework and benefit schedule for all City and Utility employees. Nothing in this document is intended to create a legally binding employment contract or to change the at-will nature of employment with the City or Utility of Eagle River. The City and Utility of Eagle River reserves its rights to exclusively manage its operations in the best interest of the Eagle River taxpayers, citizens and ratepayers. This personnel policy applies to all City and Utility employees. Where unionized police officer contracts and those employees with personal contracts conflict with this handbook, the contract prevails.

Employment with the City and Utility of Eagle River is an *at-will* relationship. The employees voluntarily enter into an employment relationship with the City and Utility of Eagle River and are free to resign at any time. Similarly, the City of Eagle River Common Council or Utility Commission may terminate an employment relationship *at-will* at any time, for any reason or no reason, provided applicable federal, state or local law have not been violated.

This Handbook goes into effect beginning January 1, 2012, and per the revision schedule on the document cover. All previous ordinances, resolutions or motions previously made by the Eagle River Common Council, Utility Commission or other authorized committees or commissions or past practice are hereby rescinded, and this handbook supersedes those actions. In all cases, State and Federal law takes precedence over this handbook.

MAYOR AND COMMON COUNCIL

The Mayor and Common Council are the governing authority in the City of Eagle River. All Personnel, Committees and Commissions derive their authority to act from them. The Common Council maintains the right to modify or change the policy handbook, through ordinance procedure, at any time they desire. All policies adopted herein govern the overall management of all employees and define the wage and benefit entitlements. State and Federal law supersede the policy handbook when in conflict with the handbook. The City of Eagle River may enter into Labor and individual contracts per Wisconsin and Federal Law.

DEFINITIONS

For the purpose of identifying personnel in the policies hereafter, the following definitions shall apply. For further clarification, see the Organizational Chart on page 5.

Supervisors will see that the provisions of this section are met. It is also the duty of every employee to help create a work environment that promotes equal opportunity. You must report any incident or situation that you believe violates this policy using the Complaint Procedure outlined below.

Anyone who engages in unlawful discrimination will be subject to disciplinary action or termination. We will not tolerate retaliation against another person for filing a complaint, reporting alleged discrimination, or participating in an investigation. Anyone who engages in retaliation will be subject to disciplinary action or termination.

CONDITIONS OF EMPLOYMENT

Every prospective employee will have a background check and a criminal records check. The applicant must provide a signed release to allow for the background check.

We are committed to full compliance with applicable federal and state disability laws. An employee who is a qualified individual as defined by state or federal law will be provided a reasonable accommodation if one exists that allows the employee to perform the functions of the employee's job unless such accommodation creates an undue burden or poses a direct threat to the safety of the employee or others.  - b. Deductions. Deductions from exempt employees' salaries may occur under the following circumstances:
 - (1) Absences of one or more full days for personal reasons where you elect not to substitute any accrued leave time, or you do not have any accrued leave time available.

TIME-KEEPING

All employees shall maintain a daily attendance record in the format we provide. This record shall reflect daily your start and end times, including start and end times of your lunch period, overtime hours worked, and all absences for vacation, illness, holidays, use of compensatory time, etc. You must keep an accurate record of your time. You must certify the accuracy of your time report by signing it, or by forwarding it by email for approval to your supervisor. If any corrections or modifications are to be made, both you and your supervisor must verify the accuracy of the changes by initialing the record at the time you are aware a change is needed.

1. Time should be recorded in 15-minute increments and totals recorded in decimal format (example: 12.25 or 16.5). Employees may round their time to the nearest .25 hour. Failure to obtain advanced approval for overtime may result in disciplinary action.
- 3. Accrued paid leave must be used if you are absent from work during your normal work hours. You may only take time off unpaid with approval from the Mayor; you will not be allowed an unpaid absence for the purpose of avoiding the use of accrued paid leave.
- 4. Altering, falsifying or tampering with time records, or recording time on behalf of another without authorization from a supervisor, is prohibited and will lead to disciplinary action.

Department heads shall assign overtime work only as necessary and when circumstances prevent the accommodation of additional work through reassignment of work priorities or the rescheduling of hours within the same work week.

GRIEVANCE PROCEDURE

Purpose and Scope

This policy provides guidance for City of Eagle River and Utility employees and supervisors concerning employee discipline and to implement the grievance procedure mandated by Section 66.0509(1m), of the Wisconsin Statutes other than police and fire employees. This procedure also applies to "Workplace Safety" which impacts the conditions of employment affecting an employee's physical health or safety, the safe operation of workplace equipment and tools, safety of the physical work environment, personal protective equipment, workplace violence, and training related to same. This grievance procedure does not apply to the Police Department unionized personnel or the Police Chief; however, this procedure does apply to all other employees.

Any written grievance filed under this policy handbook must contain the following information:

- 1. The name and position of the employee filing it,
- 2. A statement of the issue involved,
- 3. A statement of the relief sought,
- 4. A detailed explanation of the facts supporting the grievance,
- 5. The date(s) and the event(s) giving rise to the grievance,
- 6. The identity of the policy, procedure or rule that is being challenged,
- 7. The steps the employee has taken to review the matter, either orally or in writing, with the employee's supervisor,
- 8. The employee's signature and the date.

Discipline

Disciplinary action may call for any of four steps – verbal warning, written warning, suspension (with or without pay) or termination of employment – depending on the problem and the number of occurrences. There may be circumstances when one or more steps are bypassed. Certain types of employee problems are serious enough to justify either a suspension or termination of employment without going through the usual progressive discipline steps. The City of Eagle River and Utility reserves the management right, in its sole discretion, to impose disciplinary action as may be appropriate to the particular circumstances.

Grievance Procedure

- 1. This procedure addresses issues concerning workplace safety, discipline and termination. For purposes of this policy, workplace safety means the conditions of employment related to physical health and safety of employees, as long as such conditions are not unenforceable under federal or state law, related only to: safety of the physical work environment, the safe operation of workplace equipment and tools, provision of protective equipment, training and warning requirements, workplace violence and accident risk.
- 2. Every reasonable effort should be made by supervisors and employees to resolve any questions, problems or misunderstandings that have arisen. Accordingly, employees should first discuss complaints or questions with their immediate supervisor.
- 3. If the problem cannot be resolved with the employee's immediate supervisor, a written grievance may be filed with the City Administrator (for city employees) or Utility Commission (for utility employees), no later than five (5) business days from the date that the employee first became aware, or should have reasonably been aware, of the condition or circumstance giving rise to the grievance. The City Administrator or Utility Commission may schedule a meeting to review the matter within ten (10) business days of receiving the grievance. The City Administrator will provide a written response within ten (10) business days of receiving the grievance or within ten (10) business days of the meeting, whichever is later. The Utility Commission will hold a meeting within (10) working days of receiving the grievance to determine a response. The Utility Commission will have (10) business days after the meeting to respond in writing to the employee. If the employees' immediate supervisor is the City Administrator or Utility Commission, then the employee may submit a written request for a hearing before an impartial hearing examiner as outlined in 4.d. below.
- 4. The written decision provided in paragraph 4.c. above shall be final unless the employee files a written request for a hearing before an impartial hearing examiner. The City of Eagle River

- will provide an examiner who shall not be a City of Eagle River employee. The hearing shall be conducted as soon as practicable and may or may not be transcribed, subject to the examiner's discretion. Subject to the examiner's discretion, supporting written documents may be submitted along with verbal testimony. The appealing party carries the burden of proof. The examiner may request oral or written closing arguments and replies. The examiner shall provide a written decision to the Eagle River Common Council.
- 5. The decision of the impartial hearing examiner may be appealed to the Eagle River Common Council by the employee or City Administrator or Utility Commission within five (5) business days of the date of the decision. If the decision is not appealed to the Eagle River Common Council within the five (5) daytime period, the decision will be considered final.
- 6. If the decision is appealed, the Eagle River Common Council shall review the matter. The Eagle River Common Council shall examine any records produced at the hearing before the impartial examiner. A simple majority vote of the membership shall decide the appeal and shall be final. Members of the Council and Mayor who also serve on the Utility Commission and who have heard the case before the Utility Commission must recuse themselves from this final process.
- 7. Failure to process a grievance by the grievant within the time limit, or agreed upon extensions, shall constitute termination of the grievance. Failure of a management representative to meet the time limits shall cause the grievance to move automatically to the next step in the procedure. Time limits may be extended by agreement in writing of the parties at any step of the procedure.

SECTION 105 HEALTH REIMBURSEMENT ARRANGEMENT (HRA) EMPLOYEE INSTRUCTION SHEET

City of Eagle River is continuing a Section 105 Health Reimbursement Arrangement (HRA) to help provide better health care coverage to employees and their families. HRAs are implemented by many employers to help manage increasing health care costs and to provide employees with an incentive to be better consumers of health care. They are working with Diversified Benefit Services, Inc. (DBS) to manage and administer the HRA. The program works as follows:

- You and/or your family members utilize your health plan as you normally would. When you use your health plan, the insurance company will process your claim and send an Explanation of Benefits form (EOB) to you. The EOB form shows the date of service, service provided, cost of the service, amount insurance paid on the claim.
- An Explanation of Benefits form (EOB) will *also* be sent electronically from the insurance company to DBS stating the amount of services applied toward the deductibles.
- As DBS receives the electronic information, the deductible amounts will be paid directly to the vendor/provider based on your employer's HRA reimbursement plan parameters.
- Prescription drugs are applied towards your deductible. You are required to pay for the prescription at the time of purchase. The HRA will reimburse you directly for prescription drug expenses based on your employer's HRA reimbursement plan parameters.
- If you provide your email address to DBS, all notifications including claims received, reimbursements issued and requests for additional information will be sent to you via email.
- There are no claim forms to file for the HRA. (However, if you have dual health coverage, you must submit EOB forms from the secondary insurance carrier manually along with a signed claim form for reimbursement.)

The Health Insurance Plan is HSA (Health Savings Account) qualified and prescription drugs apply toward the deductible. Employees may set up a HSA with this Health Reimbursement Arrangement.

Medical Certification.

- 1. If leave is for your own serious health condition, the serious health condition of a covered family member, or a qualifying exigency, you may be required to provide a medical certification form completed by the health care provider. You must submit the certification form within 15 calendar days of the request. If you make a diligent good faith effort but cannot meet the 15 calendar day deadline, we will give you additional time to provide the certification. We may require you to provide updated medical certification forms periodically to the extent permitted by law.
- 2. If you do not provide the medical certification form as requested, your leave (or the continuation of your leave) may be denied or delayed until you provide it. If you never produce a requested certification, the leave is not FMLA covered and will not be protected by FMLA laws.
- 3. Genetic Information Nondiscrimination Act (GINA) Notice. GINA prohibits employers and other covered entities from requesting or requiring your genetic information, except as allowed by the law. Please do not provide any genetic information when responding to a request for a medical certification. Genetic information includes your family medical history, the results of your or a family member's genetic tests, that you or a family member sought or received genetic services, and genetic information of a fetus carried by you or a family member or an embryo held by you for a family member receiving reproductive services.

Insurance and Benefits. You may continue health insurance coverage while on FMLA on the same terms as if you continued to work. You must continue to pay your share of the premiums through payroll deduction or by direct payment on the first of the month. Subject to COBRA, FMLA, and any other applicable laws, our obligation to maintain health, dental and vision benefits will stop if you inform us of your intent not to return to work at the end of the leave period, if you fail to return to work when your leave entitlement is exhausted, or if you fail to make required payments while on leave. You will continue to earn accrued benefits while paid leave is substituted for unpaid FMLA time off.

Return to Employment.

- 1. When you return from FMLA for your own serious health condition, you must provide a return-to-work release signed by your treating physician showing that you can return to duty with or without work restrictions. We will delay your return to work until it is received.
- 2. At the end of your FMLA leave, you will be returned to the position you held at the commencement of leave or, if the position is filled, to an equivalent position. The return-to-work entitlement will be no greater than if you had continued in employment without taking leave.
- 3. Under federal FMLA, the return-to-work entitlement does not apply to "key" employees. We will notify you regarding key employee status and its possible implications for job restoration at the time leave is requested.
- 4. You must notify your immediate supervisor if your return-to-work date changes. If you want to return to work before leave is scheduled to end, and work is available, you must notify us at least 2 workdays prior to the desired return date.
- 5. If you do not return to work from an FMLA leave at the designated time, we will consider you to have voluntarily ended your employment, unless you were unable, because of an emergency, to notify us.
- 6. If your FMLA leave expires, and you remain unable to perform the essential functions of your position, your right under the FMLA to your job will end with the expiration of the FMLA leave period. You should contact [insert position or department] to discuss options, which will take into consideration the circumstances of your particular situation and any obligation to reasonably accommodate a disability if one exists as defined by applicable state and federal laws.

Employees or volunteers using social media should never disclose private or protected information.

The City of Eagle River or Utility will conduct annual reviews of any social networking sites to which the city or utility computer system has posted information. Reviews will consider whether or not the information:

Assistant Chief of Police

Admin/General

I met again with the pickleball group regarding their search for a larger parcel of land to accommodate a new court complex. After nearly a year of negotiations with NPSD, the proposed project was ultimately rejected, so they are once again exploring available sites in and around the City.

We reviewed several parcels using the mapping system and examined zoning classifications to determine where a complex could be permitted. While parks are a use by right in residential zoning—and "park" includes both public and private recreational uses—I advised against locating a full complex within a residential neighborhood due to potential noise concerns. The group does not want to create conflict with nearby residents, so they agreed this would not be an ideal fit.

We identified a few parcel numbers to research further and will continue their search. If any Council members are aware of potential locations that may be suitable, please let me know and I will pass that information along to the group.

In your packet is a new ordinance amendment for winter parking. Jim Holperin and I worked on updated language, and we feel the version submitted for Council approval fits the needs of both the City and those who live downtown without access to a driveway or garage.

<u>City Hall Safety</u> – Kozar has been notified that we are moving forward with the panic button installation. The down payment has been submitted, and the equipment has been ordered. They anticipate an installation timeline of approximately eight weeks, which places installation in mid- to late January. At that time, the equipment will be installed at each workstation.

<u>IT & Phones/Internet</u> — We are close to finalizing the contracts for both the IT managed services and the internet/phone provider. Only a few minor revisions are being negotiated based on recommendations from Steve Garbowicz. In the meantime, Frontier has begun installing the necessary hardware at City facilities, so we are fully prepared to transition phone service in early January.

On Monday, December 8th, IT Strategies will be on-site to begin system inventory and discovery work, as well as meeting with department heads—primarily the Police Department and Administration—to ensure a smooth transition in January.

The next round of the Cybersecurity Grant program has also opened. Applications are due in January, and this will be the final round that requires no local match. The grant provides up to \$100,000 in eligible expenses over the next 15 months. Additionally, because our insurance is through the League Mutual, we are eligible for up to \$5,000 in reimbursement for implementation fees.

Departments/Committees/Commissions

<u>Golf Course</u> – In May 2024 I enrolled the Golf Course in the class-action lawsuit against Visa and Mastercard related to allegations that merchants were charged excessive credit card processing fees due to antitrust violations involving the companies and their member banks. A nationwide settlement of \$5.5 billion was reached, and the Golf Course is scheduled to receive a partial payment of \$1,084.59, anticipated in February 2026.

Bar Coolers – The first of the two new coolers has been delivered to the clubhouse. We are still waiting for delivery of the second unit. In the meantime, Camtech has already removed one of the existing coolers. The remaining unit is secured under a countertop, so I will need to get a couple of staff members in to remove that countertop before Camtech can take out the second cooler. Given that the second new cooler has not yet arrived, we have ample time to complete this prep work. Mike from Camtech indicated that delivery of the second unit is still approximately 4–5 weeks out, so installation of both new coolers will likely occur in January.

Restaurant Lease – To date, I have been in contact with two potential applicants for the restaurant lease. Proposals are due on December 15th, and if these remain the only submissions, I would feel confident moving forward with either applicant. The Mayor and I are scheduled to meet with one of the applicants prior to their proposal submittal to discuss a potential offer involving the clubhouse more broadly. We will have additional information to share following that meeting. At this time, however, we do not want to get ahead of the process or disclose any details that were shared informally.

<u>Planning Commission/Comprehensive Plan</u> – We've signed the contract for the comprehensive plan, so we will begin working with the North Central WI Regional Planning Commission in January to start that process.

In your packet is a checklist of actions that need to be taken to implement an "impact fee." This isn't something that can be done without some in-depth study and planning. After reviewing the list of requirements, if the Council wishes to move forward with establishing the fee as part of our Zoning, I can work with the consultant for the comprehensive plan to see if we can add that to the scope for that project.

We haven't had need for a Planning Commission meeting in a couple of months. It's the quiet time of the year, but we'll have two items on the agenda in January. One is a preliminary plat of the Riverside Park development, and the second is a preliminary vision for new bathrooms to be added to the park behind City Hall, funded by the Lions Club.

<u>Public Works</u> – Our guys got their first taste of snowplowing for the City, and my personal opinion is that the streets look great!

DPW report on the previous month's activities attached to this report (Appendix A)

<u>River Trail Commission</u> – I met with the small committee set up to establish a maintenance plan to discuss the reply received from the DOT regarding snow removal along the River Trail in the City of Eagle River.

2026 Projects

<u>Silver Lake Road</u> – we had to correct the pay app #3 approved in November, because the sum paid on Pay App #2 wasn't deducted from the balance due. We are withholding the final payment of retainage (approx. \$15,750) until spring to make sure the restoration takes on the roadsides. Once we pay that final sum, I will be able to submit for reimbursement through LRIP for the 50% grant.

I've begun working with MSA on the 2026 street projects. The professional services agreement has been signed for the design and engineering. Not much to report at this time, but more to come in the new year.

Grant applications have been submitted under the LRIP MSID/MSIS programs to support future road improvement projects on Jack Frost and McKinley. These programs are competitive and awarded based on the availability of remaining LRIP funds.

In addition, the project application for the City's 2026/2027 LRIP entitlement allocation has been submitted, with the intent to apply those funds toward the 1st Street project scheduled for 2026. This entitlement is non-competitive, and the City is guaranteed \$8,042 for that project.
